

## Dungowan Public School Planning for SCHOOL IMPROVEMENT

March 2020

As part of our deep commitment to our students and families, we are constantly looking for ways to improve our school and our teaching practice, always with the focus on further improving student engagement (motivation & interest) and learning. We need to take into account the specific needs of each student, effective use of up-to-date resources and current research on student learning & teaching practice. We know that to best serve you and your child, we must continually develop the capability of each staff member through regular access to professional learning, suited to the needs, interests and talents of each staff member.

Over the past few years, we have achieved many things that are visible and some perhaps not so visible to parents;

We will continue to implement and revise these changes as necessary.

We feel we are on the right track with the school, our programs and your children... but as you (parents and carers) are very important to us, we would love to know if you agree 😊

### **SO – What do we need from you? Information please...**

On the following pages are some surveys –

You may have some thoughts that others share, of which we are unaware or didn't realise were your priority. These surveys can be filled in anonymously, but we would always hope you feel that could bring any concerns openly to us about your child's education and welfare.

We may not be able to achieve everything immediately, but we need goals short term and long term.

Thank you in advance for completing these surveys.

We would appreciate them back ASAP.

Kerri-Anne Hubble

Principal, Dungowan PS

*The best things about Dungowan PS ...*

*What I would like to change about our school, if I could .....*

*I would like more information about .....*
